This is one of the "Special Series" of the well known Yellow Books emanating from what, in this connection, we may call the Intelligence Department of China. With men of exceptional ability stationed at each open port, the Inspector-General has only to issue a circular calling for information on any given subject, and in a short time the replies are sent, collated in the Statistical Department, and published with summary. Robert Henry Stafford, chief officer of the steamer Victoria, said-I heard a shot fired yesterday morning and saw a Chinaman-wounded in the face. I went to see who had fired the revolver, and found out it was defendant. When I found him he was crying. He said that the revolver had gone off accidentally in his hand.
